

START Membership/Donation

Your St. Louis Animal Rights Team (START) membership dues and support are very important to us, and we are thrilled that you have expressed an interest in our group and in animal rights. As a small grassroots organization, we need financial support in order to continue functioning. Contributions and membership dues cover day-to-day expenses, such as copying and printing costs, postage, literature, and other materials, as well as website fees, community event registration, and supplies for these events. It takes dedicated activists to fight the anti-animal industries, which spend millions of dollars trying to stifle the truth.

Using the form below, we urge you to please contribute whatever you can to support START. Any donation is greatly appreciated and will be put to good use in directly advocating for animals in the St. Louis community, and in assisting START to further reach and inform the public about the atrocities committed against other species in today's society.
